**Module (F): Learn Powerful Pro-Intraday Technique to filter and Trade in Unidirectional Stocks By Dr. SEEMA JAIN (Estimated Duration 2 Weeks)**

This technique is going to be an eye-opener for Intraday Traders. The technique to filter stocks is never heard in the Indian Stock Market training arena. This method is an exclusive work of the StockPro Research Team. The trades generated are highly accurate with small Stop-Losses and big targets. In this course, we only try to find out the institutional activity that cuts the noise and high Intraday fluctuations of Stocks, resulting in Big-Intraday- Targets.

We have a thoroughly researched screener that gives you potential stocks from 9:16 AM to 9:20 AM. These stocks have the capacity to run for the entire day.

This technique will change the way you have been trading till now. We will not be using any indicator or any oscillator. Join the course if you have been watching the consistency of our Uni-Directional trades months after months. This Requires a Premium Scanner from CHARTINK which you will have to buy directly from CHARTINK after the training. After joining this course and practicing for 1 month, you will be an accomplished trader. After joining and completing this course, you will be one of the very few people who will know the secret technique to trade in the Stock Market.
