

Hi Everyone,

Greetings from Stockpro!!!

Thanks for showing interest in StockPro “Pro-Intraday Trading Course”.

What you will learn in this course...?

A). Learn To Filter Powerful Uni-Directional Stocks & Trade in Them Using Pro-Intraday Scanner.

This Course is going to be an eye-opener for Intraday Traders. This technique to filter stocks is never heard in Indian Stock Market training arena. This course is an exclusive work of StockPro Research Team. The trades generated are highly accurate with small Stop-Losses and big targets. In this course we only try to find-out institutional activity which cuts the noise and high Intraday fluctuations of Stocks, there by resulting in Big-Intraday- Targets.

We have thoroughly researched scanner which gives you potential stocks at 9:16 AM to 9:20 AM. These stocks have the capacity to run for entire day. This Course will change the way you have been trading till now. We will not be using any indicator or any oscillator.

Join the course if you have been watching consistency of our Uni-Directional trades months after months.

This Requires a Premium Scanner from CHARTINK which you will have to buy directly from CHARTINK after the training.

After joining this course and practicing for 1 month, you will be an accomplished trader. After joining and completing this course, you will be one of the very few people who will know the secret technique to trade in Stock Market.

B). Stock Selection Any Time Of The Day.

Share again; we use the very powerful scanner to filter stocks with potential upcoming breakouts. Entry is taken by strict & rigorous StockPro method.

This scanner is a free scanner and you need not to purchase. This is also a very powerful technique and gives good entries.

C). Stock Reversal Strategy ;(Trade In Intraday Using Secret Gann Levels)

Very secret method of Gann reversal technique of stocks is taught which can provide good returns, if timed properly.

D). Learning of Stock Specific Reliance Reversal Trading Strategy.

This strategy has been back-tested on Reliance for years and it has an accuracy rate of about 85 - 90%. We will not be using many indicator and oscillators. It is mainly based on highly accurate price action.

E). Strong Money Management/Trade Management/Risk Management lessons.
